

## AEROSPACE ENGINE SUPPLIER QUALITY STRATEGY GROUP SUPPLIER FORUM

---

### **Subject: AESQ Supplier Forum Invitation**

**Wednesday 10 October – Tokyo, Japan – Hosted by IHI**

Dear Supplier,

As a valued engine supply chain supplier, we invite you to attend the upcoming ***AESQ Supplier Forum*** scheduled for Wednesday 10 October in Tokyo, Japan.

AESQ Supplier Forums are intended to keep stakeholders engaged by sharing progress and direction. These Forums serve as a way to gain supplier feedback on existing AESQ workstreams and provide input on future workstreams.

AESQ Supplier Forums are an opportunity for the aerospace engine supply chain to learn what the AESQ is doing; to provide feedback to AESQ on its efforts; and to provide suppliers with the opportunity to talk directly with their customers (AESQ members).

The Supplier Forums are designed to provide a broad overview of the industry through several key presentations enabling the supplier community to gain greater insight into topics related to:

- Challenges within the aerospace Engine Supply Chain
- AESQ Workstreams (AS13000 series)
- Opportunities for standardization of quality processes
- Supplier Benefits, Customer Satisfaction and quantifiable gains

### **About AESQ**

The Aerospace Engine Supplier Quality (AESQ) Strategy Group is established to develop, specify, maintain, promote and deploy quality standards specific to the Aerospace Engine supply chain. This is intended to reduce customer specifics through a focused set of standards that integrate industry best practice and aerospace engine unique elements.

AESQ's vision is to establish and maintain a common set of Quality Requirements that enable the Global Aerospace Engine Supply Chain to be truly competitive through lean, capable processes and a culture of Continuous Improvement.
